

Summary of Experience

Kurt Hezner is part of the third generation that owns and manages The Hezner Corporation. He has been with the firm since 1978 and has worked within the Architectural / Construction industry for over 38 years. Kurt has provided professional architectural services on a broad spectrum of large and small projects and for building types including Financial, Corporate, Civic / Municipal, Religious, and Industrial projects. Kurt's background includes experience in all aspects of architectural practice with emphasis on Programming, Planning, Architectural Design, Project Cost Analysis, Construction Documentation, and Construction Administration.

Since joining the firm Kurt has focused on developing an entrepreneurial practice that can meet the broad spectrum needs of today's civic and municipal agencies and businesses. Kurt's industry awareness has helped the firm remain informed and affective, and his participation in architectural industry associations such as ALA helps everyone in the firm stay current with trends and changes in our profession. Kurt Hezner is the president of both, The Hezner Corporation and Hezcorp Construction Services, and serves as the executive director of all services provided.
